

JLM Performance DPF/GPF Cleaning Spray

500ml – J02224

Clean the filter. Restore performance.

JLM Performance DPF/GPF Cleaning Spray quickly and effectively removes soot, particulate matter, carbon and other deposits from contaminated diesel particulate filters (DPF) and gasoline particulate filters (GPF) without the need to dismantle the filter.

The advanced foam formulation of the JLM Performance DPF/GPF Cleaning Spray ensures extended contact time and optimal adhesion to the internal filter structure, allowing deposits to be loosened and dissolved more thoroughly. The product restores the full flow capacity of the particulate filter, enabling exhaust gases to pass freely again without back pressure.

Vehicles that are mainly used for short journeys or are rarely driven on motorways often fail to reach sufficient exhaust temperatures for proper particulate filter regeneration. This results in poor regeneration, reduced engine performance and increased fuel consumption. JLM DPF/GPF Cleaning Spray offers an effective solution to these problems.

Benefits:

- Removes stubborn carbon and soot
- Enhances burn-off performance
- Improves soot breakdown effectiveness
- Restores filter capacity
- Prevents power loss caused by clogged filters
- Cleans without the need for dismantling

Suitable for all turbocharged or naturally aspirated petrol engines as well as diesel engines (incl. common rail) running on low or normal sulphur level diesel fuel.

Recommended for vehicles mainly used for short journeys that suffer from clogged or poorly regenerating DPF or GPF filters.

How to use:

1. Shake well before use and keep the aerosol can upright during the procedure.
2. Bring the engine up to operating temperature, then switch it off.
3. Remove the temperature sensor and/or pressure sensor.
4. Insert the spray tube with special nozzle into the opening facing the particulate filter.
5. Spray the entire contents of the can as foam into the DPF or GPF.
6. Refit the temperature sensor and/or pressure sensor.

PRODUCT INFORMATION

Art. Nr:	J02224	Barcode:	8718274352245
Hs Code:	34029010	Ufi Code:	TX46-70H1-800P-U0G3
Pack Size:	500ml	Quantity in box:	12
Flash Point °C:	-97 °C	Boiling Point °C:	-44,5
Colour:	White	Density at 20 g/cm³ C°:	~0,944
