

JLM Diesel Fuel System Cleaner Performance

250ml

Enhanced Cleaning and performance restoration

JLM Diesel Fuel System Cleaner Performance is the go-to solution for vehicles suffering from performance loss, poor throttle response, excessive fuel consumption, or minor smoke issues. This high-performance formula builds on the base version (J02335) but goes further, offering a deeper, more aggressive cleaning action designed to restore drivability and engine response.

Enriched with additional active detergents and combustion enhancers, J02345 dissolves stubborn gum and varnish deposits, cleans the entire fuel system more thoroughly, and provides noticeable improvements in acceleration and efficiency—even under demanding conditions.

Unlike general-purpose additives that primarily serve a preventive role, J02345 is designed to solve problems. It's ideal for vehicles with higher mileage, heavy-duty use (e.g. commercial vans, taxis), or drivers who demand peak engine performance.

Benefits

- Powerful cleaning across the entire fuel system
- Maximises engine power and throttle response
- Significantly improves fuel economy
- Dissolves stubborn gums and varnish deposits
- Recommended for vehicles with drivability issues

Recommended for:

Cars with drivability issues or fuel economy complaints

Usage

For all diesel engines (incl. common rail) with or without turbochargers running on low or normal sulphur level diesel fuel.

How to use

1. Shake the bottle well before use.
2. Pour the contents of the bottle into the tank before refueling Dosage: One bottle is enough for 40 - 60 liters diesel.
3. Start your engine and experience the benefits
4. For best results, use one bottle every 5000 kilometers.

PRODUCT INFORMATION

Art. Nr;	J02345	Barcode ;	8718274352054
Hs Code ;	38119000	Ufi Code ;	4AG6-G012-A00J-V9YW
Pack Size ;	250ml	Quantity in box ;	12
Flash Point °C;	>61	Boiling Point °C ;	60-245
Colour ;	Amber	Density at 20 °C ;	0.803
